

SAME-DAY DENTISTRY

Restoring your smile in a single visit with dental crowns!

WHAT IS A DENTAL CROWN?

A dental crown is a hard, protective covering for a tooth. It improves or restores the tooth's shape and strength, while improving its appearance and utility in daily activities, like eating and talking.

YOUR SOLUTION FOR:

A broken tooth

Severe decay

Cosmetic concerns

Root canals

DENTAL CROWN OPTIONS:

TRADITIONAL "lab-made" or "traditional" crowns

Commonly, crowns require manual impressions and multiple visits to the dentist and the placement of a temporary crown after the tooth is prepared.

Because you have to wait days or weeks for your crown to be made, your dentist might provide you a temporary crown. These usually don't fit well and aren't very comfortable.

TRADITIONAL CROWNS: *The downside.*

- ✗ **The inconvenience of multiple appointments:** Who has time for that?
- ✗ **Potential issues with the temporary crown:** Now there are even more appointments & pain.
- ✗ **Not enjoying all the foods you love:** You will need to baby your temporary crown.
- ✗ **Messy impressions:** Who wants a mouthful of gooey paste or putty?
- ✗ **Waiting weeks for your permanent crown:** Elongated time increases your risk of injury.
- ✗ **If the crown doesn't fit:** Now there is even more time waiting for the lab.

SAME DAY (CEREC) "chairside" or "same day" crowns

Technology perfected over the last 30 years gives dentists tools to create and place a permanent crown in a single appointment.

A comfortable oral camera provides 3-D digital images of the tooth. The images are used to digitally design your crown. In minutes, a sophisticated milling machine creates your custom crown from a single piece of porcelain.

SAME DAY CROWNS: *The upside.*

- ✓ **Save time:** Receive your permanent crown in a single visit.
- ✓ **Cost is similar to lab-produced:** Comparable cost (sometimes less), and with a single visit.
- ✓ **Get your permanent crown right away:** Reduce risk of further injury.
- ✓ **Resume normal eating:** Get back to your normal life in a day.
- ✓ **Precise digital impressions:** We use a small oral camera for comfort & accuracy.
- ✓ **Natural appearance:** No one will know it's there (but you & your dentist).
- ✓ **Save more of your tooth:** Same day often allows dentists to preserve more.
- ✓ **Reduce hot & cold sensitivity:** Skip the temperature-conductive metal.

SAME DAY CROWN BENEFITS:

You get your new smile today!
What's better than instant gratification?

Saves time!
You won't need multiple appointments.

No temporary crowns or waiting
for a laboratory to fabricate the permanent restoration.

It's all digital!
You can watch us design and fabricate the crown while you wait.

STOP WAITING!

With CEREC technology, we offer high-end professional quality dental solutions **in-house** and **on-demand**.
